BETTER BLOOMING BULBS

HEBERLING'S GLADIOLUS

Inc.

CORN BELT GROWN

J. H. HEBERLING - EASTON - ILLINOIS - U. S. A.

Greetings

Greetings to our friends.

Again our thanks to you for your good orders of last season. They made possible our increased acreage, the better to serve you this season.

Our business is built on repeat orders and satisfied customers and so it shall always be. We strive to give each of you quality, service, and satisfaction. Your satisfaction is our pleasure.

Mr. Babson says times are again on the up and greater prosperity is ahead. He is generally right. May you each have your full share and let us all help make it true.

FOREWORD

We have prepared this season a more brief price list in order to get it to you more quickly with the advantage of our lowest possible prices.

We are not offering any new introductions at this time but are offering Beautiful Ohio and Golden Lancer at reduced prices and both are outstanding in their respective color classes.

We regard Peggy Lou as the outstanding U. S. introduction of last season and feel sure that it is all that we say it is. We are listing many other new and outstanding varieties and commend this list to your attention.

Please note the prepaid list for small quantities and rare bulbs and the wholesale list for quantities at lower prices. We are now digging and the quality of our stock has never been better. All stock certified disease and insect FREE.

We are not listing our achievements this season because of lack of space but assure you that we added very materially to our already large collection.

Don't overlook the "Money Saving Coupons" on the back cover. They are worth money.

Lastly we offer "value received," "quality," "service" and "satisfaction."

J. H.

BEAUTIFUL OHIO

Introduced by Heberling's Gladiolus Fall 1935.

Commercial type of a beautiful Terian pink with a touch of Tyrian rose in throat, almost a self color. It opens from five to eight florets at once from four and one-half to five inches in diameter. Spikes are about forty-four inches tall and flower head and flowers are of the Minuet type with eighteen to twenty open flowers and buds to the spike.

This variety comes with a straight clean spike and generally good placements, does not crook and stands heat well. Is a great favorite with Florists wherever it is known and harmonizes with Minuet and Golden Lancer especially well in makeup work. It also works in well with rose shade of roses. It is destined to go places commercially. It should be exhibited in the decorative class.

It produces a fair amount of bulblets from young bulbs and they germinate well. This season our germination was about 90%. The larger bulblets making size two and three bulbs. Stock is small as yet. Bulbs clean and healthy.

We predict that this variety will be eventually grown by all commercial growers. "Why not now?"

Beautiful Ohio seldom fails to win in its color class. Many awards to its credit.

GOLDEN LANCER

THE WONDER YELLOW

Introduced by Heberling's Gladiolus Fall 1936.

Golden Lancer is the one yellow which has size and yet the shade of yellow which will successfully harmonize or contrast with many other varieties. (This point is most necessary if a yellow is to be popular commercially and sought after by Florists.) Florists are the ultimate market. If they like it, enough said.

Golden Lancer is one of the most outstanding yellows for commercial use introduced in many years. Florists ask for it and prefer it above all other yellows available for makeup work.

Description—Pinard Yellow, with short delicate lines of rose red in throat, produces spikes forty-four to fifty-four inches tall. The florets measure four and one-half to five inches in size with four to six open flowers.

The spikes carry from eighteen to twenty-one buds and flowers which are well placed on a long flower head. It is a strong, sturdy grower with healthy foliage and produces clean healthy bulbs. A good producer of bulblets which germinate almost 100%.

Golden Lancer is destined to go places in a big way and I predict things for this variety commercially.

Per	No. 1	No. 2	No. 3	No. 4	No. 5	No. 6	Per Bulblets

Golden Lancer has many awards to its credit and is more popular with Florists than ever before.

OUR GUARANTEE

We guarantee all bulbs and bulblets purchased from us to be true to name, full sized, and free of disease and insects, including Gladiolus Thrips. We will replace stock or refund the purchase price of all bulbs and bulblets purchased from us that are not satisfactory, providing that we are notified of the deficiency within eighteen months of the date of purchase. We do not, however, guarantee bulblets to grow.

TERMS

The terms and discounts immediately following apply only to the first section of prices in this price list. They do not apply to the wholesale quotations or to the special offers.

All shipments will be prepaid. Please include both parcel post and express addresses. We will ship the cheaper way.

Each order must be accompanied by remittance in full, or a 20% deposit, the balance to be C. O. D.

No order for less than \$1.00 will be accepted. No single item less than 10 cents.

DISCOUNTS ON "PREPARED PRICES"

(For cash in full with order)

On orders of \$ 2 to \$15 we will include 10% in additional bulbs of your selection.

On orders of \$15 to \$25 we will include 15% in additional bulbs of your selection.

On orders of \$25 to \$50 we will include 20% in additional bulbs of your selection.

On orders of \$50 and up we will include 25% in additional bulbs of your selection.

SIZES

Our bulbs are all carefully mechanically graded for size. They are listed in six sizes and bulblets. The bulb sizes are as follows: No. 1 (over 1½ inch), No. 2 (1¼-1½), No. 3 (1-1¼), No. 4 (¾-1), No. 5 (½-¾), and No. 6 (¼-½).

LARGE size bulbs are one and one-quarter inch in diameter or more. This size makes the largest spikes and flowers. Sizes one or two.

MEDIUM size bulbs are from one inch to an inch and one-quarter in diameter. They should make excellent spikes and flowers often as large as made by the larger bulbs. Sizes three and four.

SMALL bulbs are about one-half inch in diameter and often bloom but do not make as large a spike as the larger sized bulbs. Under favorable conditions they generally bloom. They often however make a better increase than the larger bulbs. Sizes five or six.

SMALL QUANTITIES

Three, five or more bulbs may be purchased at the rate of ten bulbs if desired.

COUNT AND EXTRAS

You will find our count liberal and we feel sure you will be more than pleased with the EXTRAS included in your order. May we suggest a trial order?

Oklahoma City, Okla.

Thanks for all the extras last year. Your Golden Lancer was beautiful.

If you can give me any suggestions or varieties, that would be good in our climate I would appreciate it.

Ship these soon as possible.

Mrs. W. O. F.

Dayton, Ohio

July 21, 1938

Beautiful Ohio is well named, 8 open and remaining 9 showing color.

Sincerely yours,
H. M. M.
